MAP: how to find anything in Margdarshak

> Project: Margdarshak · Team Chanakya · Status: v1.0 · Last updated: 2026-10-23 The first three files to read are IDEA.md (the whole idea), RESEARCH.md (how we got here, with evidence) and PROJECT_BRIEF (every ID and decision).

1. Directory tree

```
margdarshak/
├── IDEA.md / IDEA.pdf           The master idea, end to end, in one read
├── RESEARCH.md / RESEARCH.pdf   How we researched, every problem and how we tackle it,
inspirations, 975 sources
├── MAP.md                       This file
├── README.md                    Front door
├── CLAUDE.md / AGENTS.md        Rules and commands for AI coding agents
├── CONTRIBUTING.md · SECURITY.md · CHANGELOG.md · CODE_OF_CONDUCT.md · LICENSE (Apache-2.0)
├── .env.example                 Every environment variable, grouped and commented
├── package.json · pnpm-workspace.yaml · tsconfig.base.json · biome.json · .node-version ·
.gitignore · .gitattributes
├── .github/workflows/           ci.yml · evals.yml · security.yml · deploy.yml (actionlint-clean)
├── api/openapi.yaml             OpenAPI 3.1 contract: 84 paths, 127 schemas (validated)
├── ai/prompts/                  7 versioned system prompts (debrief, coach, tutor, voice guide,
screen decoder, clip windows, sign snap)
├── ai/evals/                    debrief_150, voice_nav_30, decoder_30, tutor_30 (JSONL) + README
├── apps/web · apps/console      (empty) Next.js 16 citizen PWA · portals (school, state console,
rule studio)

```

Research archive (outside this repo, in `G:\HACKATHON_PROJECTS\HACKCACHE26\`): - `research/`: hackathon recon, domain research, ps1-current-state, ps1-deep 00–08. - `war-room/`: council logs, grand council, verification files. - `biblehackathon.pdf` and `ideas.pdf`.

2. Where do I find…?

Question	Document
What are we building, in one read?	IDEA.md
Why this idea, and what's the evidence?	RESEARCH.md
Every ID, decision and resolved conflict	PROJECT_BRIEF (§15)
What exactly does each feature do, and when is it done?	PRD · FEATURES
Does it tick every PS1 box?	FEATURES (PS1 checklist mapping)
Who are the users?	PERSONAS · USER_JOURNEYS
What does each screen look like?	UI_SPEC → the two parts
Colours, fonts, motion, components	DESIGN_SYSTEM · `packages/ui/tokens.css`
What do we say on screen (and never say)?	CONTENT_STYLE
How do the games work and how are they scored?	GAME_DESIGN · GAME_SDK
What do we teach, and why?	CURRICULUM
How does the AI debrief work without making things up?	DEBRIEF_SPEC · AGENTS · PROMPTS
How does the voice guide work?	VOICE
XP, readiness, streaks, badges	GAMIFICATION_ENGINE
Nazar clip bank and study	NAZAR · FIELD_STUDY
System architecture and the government adapters	ARCHITECTURE · INTEGRATIONS
Database schema / ontology	DATA_MODEL
Endpoints	API_SPEC · openapi.yaml

Question	Document
How do I set up and run it?	ENVIRONMENT_SETUP
How is it tested?	TESTING · AI_EVALS
How is it deployed and what does it cost?	DEPLOYMENT · COST
What do the n8n workflows do?	N8N_WORKFLOWS · `n8n/`
What if something breaks on demo day?	RUNBOOK · DEMO_SCRIPT
Is it legal? Aadhaar, DPDP, minors, gaming, impersonation	COMPLIANCE · LEGAL_MEMOS · PRIVACY
Edge cases EC-01..EC-30	EDGE_CASES
What can go wrong?	RISK_REGISTER · THREAT_MODEL
How can a state adopt it?	GOVERNMENT_ADOPTION · STQC_PREAUDIT_PACK
How we model the domain (Palantir-style)	PALANTIR_METHOD
Who pays, and how we grow	BUSINESS_MODEL · GTM · FINANCIALS
What do we say to each judge?	PITCH (128 Q&As)
What do we build, in what order?	IMPLEMENTATION_PLAN · BACKLOG
Who owns what?	TEAM
What does MCWOG, Form 1A or PSGA mean?	GLOSSARY

3. How the documents depend on each other

```
flowchart TD
  RES[RESEARCH.md] --> IDEA[IDEA.md]
  RES --> BRIEF[PROJECT_BRIEF]
  IDEA --> BRIEF
  BRIEF --> PRD --> STORIES[USER_STORIES] --> BACKLOG --> PLAN[IMPLEMENTATION_PLAN]
  BRIEF --> ARCH[ARCHITECTURE] --> DM[DATA_MODEL] --> API[API_SPEC / openapi.yaml]
  API --> FE[FRONTEND] & BE[BACKEND]
  BRIEF --> GSDK[GAME_SDK] --> GD[GAME_DESIGN] --> DEB[DEBRIEF_SPEC] --> AG[AGENTS / PROMPTS] --> EV[AI_EVALS]
  CUR[CURRICULUM] --> GD
  PERS[PERSONAS] --> UI[UI_SPEC]
  DS[DESIGN_SYSTEM] --> UI
  CS[CONTENT_STYLE] --> UI
  BRIEF --> COMP[COMPLIANCE] --> EC[EDGE_CASES] --> TEST[TESTING]
  ARCH --> INFRA[INFRASTRUCTURE] --> DEPLOY[DEPLOYMENT] --> RUN[RUNBOOK]
  N8N[N8N_WORKFLOWS] --> DEPLOY
  ARCH --> GOV[GOVERNMENT_ADOPTION]
  BRIEF --> PITCH --> DEMO[DEMO_SCRIPT]
  FS[FIELD_STUDY] --> PITCH
```

4. Reading orders

Reader	Order
Every teammate (day one)	IDEA → PROJECT_BRIEF → RESEARCH §0 → IMPLEMENTATION_PLAN → your module docs (TEAM)
Frontend + game engineer	DESIGN_SYSTEM → UI_SPEC (both parts) → CONTENT_STYLE → FRONTEND → GAME_SDK → GAME_DESIGN → NAZAR → ACCESSIBILITY → LOCALIZATION
Backend + AI engineer	ARCHITECTURE → DATA_MODEL → API_SPEC → BACKEND → INTEGRATIONS → AGENTS → PROMPTS → DEBRIEF_SPEC → AI_EVALS → N8N_WORKFLOWS → INFRASTRUCTURE
Product/design lead	PRD → PERSONAS → USER_JOURNEYS → FEATURES → UI_SPEC → METRICS → PITCH → DEMO_SCRIPT → FIELD_STUDY
Legal and trust review	COMPLIANCE → LEGAL_MEMOS → PRIVACY → EDGE_CASES → RESPONSIBLE_AI → THREAT_MODEL → RISK_REGISTER
Judge (10 minutes)	README → IDEA §1–3 → PITCH (3-minute script) → FIELD_STUDY results → ARCHITECTURE §1 → RESPONSIBLE_AI
Government officer	IDEA §9 → GOVERNMENT_ADOPTION → PALANTIR_METHOD → STQC_PREAUDIT_PACK → INTEGRATIONS → COMPLIANCE
AI coding agent	CLAUDE.md → PROJECT_BRIEF → the MD-xxx ticket → the docs that ticket links

5. Open before building (owners and dates are inside the docs)

- **Before the build starts:**
- Confirm the hackathon start and submission time (DEC-001). No commits or participant data before the confirmed start.
- Pin model IDs and library versions at H0.
- **Facts to verify:**
- At ARTO Jammu: the J&K learner's-test format, the ₹1,050 slot-booking amount, the track type and the out-of-district Aadhaar rule.
- On demo morning: whether the Kerala hazard-perception test has been stayed.
- Legal and statute texts: CMVR, Aadhaar Act sections, GIGW 3.0.
- **Reviews and searches:**
- Native-speaker review of the Hindi strings and Dogri utterances; medical review of Golden Hour.
- Trademark search for "Margdarshak".
